COVID-19 comes to us
"I am very much looking forward to being "back" in the mix. I won't be in the office but I will be at every meeting and continuing dialogue. It has been a weird furlough for me but I am seeing that it was what it was because it had to be. I am almost completely healed from the concussion – just in time for the Covid19 virus to breach our defenses. My daughter tested positive. She is aching from head to toe and her throat is painful. It is only the first few days and I have heard that it gets worse as we go along. She is in her own space on the other end of the house from everyone else, so she is well isolated. Prayers and intentions that she heals quickly and unscathed and that the rest of us do not get sick would be very much appreciated. It has been a weird year for all of us."

Reminder
Dr. Brian Dailey donated anti-viral drops for any Monroe staff/family to use if they are exposed to COVID or catch the virus.

Tuesday, August 4, 2020: We're upgrading our internet service from cable to fiber.

Wednesday, Aug. 5 from 9:00a to 1:00p I'll be teaching bilocation/trilocation at the OBE Spectrum class being run by Luigi, Allyn and Fred (as trainee). I'm looking forward to being at the "front of the room" again. Better dust off my notes.

See you on Tuesday,
Scott

P.S. From Susan Smily, of course:

WORLD
THE WORLD IS
TEMPORARILY CLOSED

Denny's
ALWAYS OPEN
CLOSED
